SUMMARY

Proven ability to develop responsive and dynamic digital content using HTML, CSS/Sass, JavaScript, and PHP. While particularly passionate about JavaScript, I am ready to adapt to new frameworks, preprocessors, and graphic software.

TECHNICAL KNOWLEDGE

HTML	Page semantics and HTML5 elements
CSS	CSS selector patterns, CSS3 animation and Sass preprocessing
JavaScript	Use of JavaScript syntax: functions, arrays, and objects. Working knowledge of libraries such as jQuery and Vue.js. Babel used to access and learn ES6 features. Further study includes Node.js.
Web Accessibility	WCAG 2.0 and tools such as WAVE, WebAIM Contrast Checker and NVDA Screen Reader
WordPress	Theme and child theme development as well as a basic knowledge of PHP
Adobe	Photoshop, Illustrator, and InDesign
Microsoft	Word, Power Point, and Excel
